

Innovation since 1922

Trusted for the long run

CRUZER

Introducing,
for the first time in India,
Next Generation traveller with
**breakthrough
patented technology**

This Traveller features a special built-in lubricating properties that allow overall performance improvement in any spinning process, including high-speed and compact spinning processes.

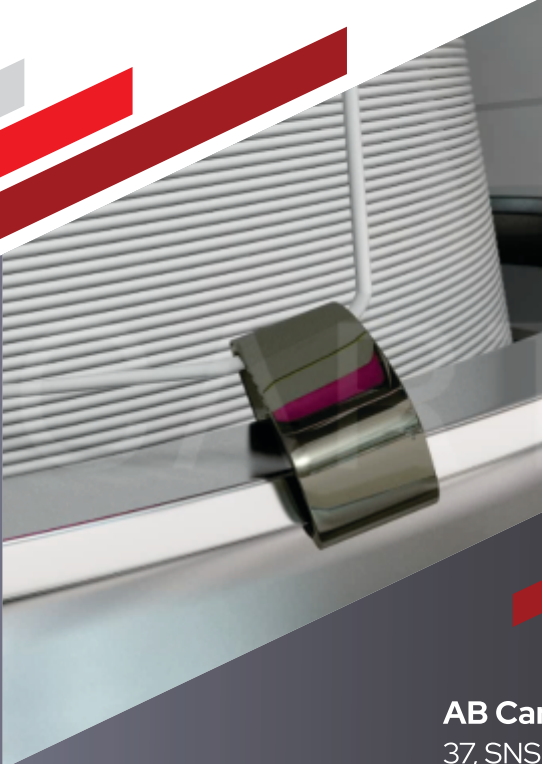

Objective

The CRUZER Traveller was developed to optimise the spinning process, by increasing the service life of both the traveller and the ring, while maintaining consistent yarn quality.

Key Merits

- Extended Traveller life
- Reduction in Traveller loading
- Excellent gliding properties
- Consistent Yarn Quality
- Faster run-in of the traveller
- Reduced Yarn breaks
- Better price / performance ratio

AB CARTER's unparalleled industry knowledge coupled with dependable and reliable service enables clients around the world to run their business with confidence.
